Full Stack Developer with 4+ years of experience building scalable web and mobile apps using Next.js, React Native, Node.js, and MySQL. Strong in UI design, team collaboration, and delivering high-quality, user-focused digital solutions.

Work Experience

Full Stack Developer
Jan 2025 - Present

Cognes | *Stockholm*

Developing a mobile app and admin portal for early dementia detection using React Native (Expo), Firebase, and Next.js. Focused on cross-platform performance, user-friendly design, and feature delivery using AI tools to accelerate and optimize development.

- Designed smooth UI/UX with Figma and implemented responsive layouts
- Developed and maintained a React Native mobile app for early dementia support
- Built a responsive admin dashboard using Next.js and Firebase Authentication
- Leveraged AI tools like Cursor, Windsurf and ChatGPT to enhance productivity and reduce development time
- Collaborated with a cross-functional team to prioritize features and deliver milestones on time

Web Developer
May 2024 - Dec 2024

Consultant & Freelancer | *Malmö*

Delivered custom web and mobile applications using Next.js, React, and React Native with Expo. Leveraged AI tools such as Bolt.new, Windsurf, and ChatGPT to accelerate development, enhance productivity, and provide innovative, client-focused solutions.

- Developed and launched websites using Next.js and Tailwind CSS.
- Created and deployed "StramEnergi.dk" - a clean energy service platform.
- Built "Syrexperts.com" – a multilingual site for immigration experts.
- Delivered a personal portfolio at "ahmadalghawi.com" using responsive design.
- Focused on performance, SEO, and accessibility for all web projects.

FullStack Developer
Aug 2022 - May 2024

SKILLUR AB FULLSTACK DEVELOPER | *Helsingborg*

Developed web apps using React.js, Node.js, MySQL, and TypeScript, creating efficient APIs, responsive UIs, and optimized performance while collaborating with cross-functional teams.

- Collaborated on the development of web applications using React.js, Node.js, and MySQL
- Designed and implemented database schemas, ensuring efficient data storage and retrieval
- Created responsive and visually appealing user interfaces with HTML, CSS, and Figma
- Utilized TypeScript to enhance codebase maintainability and code quality
- Developed APIs to send data to the frontend using Express.js and worked with JSON for data exchange
- Resolved complex technical challenges and optimized existing code to improve performance
- Managed project tasks, issues, and workflows using Jira and utilized Confluence for team collaboration
- Worked closely with cross-functional teams to meet project deadlines and deliver exceptional user experiences.
